# Durham Region Fishing Map

## Chinook Salmon

**Identification:** Black mouth and black gills; tail entirely spotted; leading ray on anal fin extends one-third the length of the fin; short, narrow caudal peduncle.

**Habitat:** Lake Ontario. Shallow water in spring and fall, and deep water during summer. Streams in fall during spawning.

**Favourite Baits:** Lake: spoons, wobbling plugs, dodger and flies. Creek: spinners, spoons, worms, flies and roe.

## Atlantic Salmon

**Identification:** White mouth and gums; few large, black spots on gill cover; no spots on tail; leading ray on anal fin extends the length of the fin; long, narrow caudal peduncle; dark-coloured pectoral fins.

**Habitat:** Lake Ontario. May ascend cold-water streams in fall.

**Favourite Baits:** Lake: spoons, dodger and flies. Creek: spinners, spoons, worms and flies.

## Coho Salmon

**Identification:** Dark mouth and light grey gums; tail spotted on upper lobe only; leading ray on anal fin extends one-third to two-thirds the length of the fin; short, narrow caudal peduncle.

**Habitat:** Lake Ontario in summer. River mouths and upstream in fall during spawning.

**Favourite Baits:** Lake: spoons, dodger and flies. Creek: spinners, worms, flies and roe.

## Smallmouth Bass

**Identification:** Dark mouth and light grey gums; tail spotted on upper lobe only; leading ray on anal fin extends the length of the fin; long, narrow caudal peduncle.

**Habitat:** Clear, rocky waters with little vegetation.

**Favourite Baits:** Jigs, spinners, crank baits, minnows, minnows and plastic frogs.

## Largemouth Bass

**Identification:** Upper jaw does not extend beyond eye; shallow notch between dorsal fins; body often has dark, broken bars.

**Habitat:** Warm, weedy, slow or still waters.

**Favourite Baits:** Spinners, crank baits, plastic worms, minnows and plastic frogs.

## Rock Bass

**Identification:** Large, red eye; six anal fin spines; adults have regular rows of spots on the side.

**Habitat:** Warm, slow or still, shallow waters with rocky bottoms.

**Favourite Baits:** Small jigs, small spoons, small minnows and worms.

## Brook Trout

**Identification:** Light worm-like markings and spots on a dark background, some red and blue; square tail; white leading edge on lower fins, set off by a black line.

**Habitat:** Cold, clear streams and small lakes.

**Favourite Baits:** Spinners, spoons, worms, flies and roe.

## Brown Trout

**Identification:** White mouth and gums; silvery with dark spots on body; only occasional, vague spots on tail; only salmon or trout with orange on adipose fin; leading anal fin ray extends the length of the fin; short, stocky caudal peduncle; light-coloured pectoral fins.

**Habitat:** Cold waters of deep lakes.

**Favourite Baits:** Spinners, spoons, worms, flies and roe.

## Lake Trout

**Identification:** Light worm-like markings and spots on a dark background; deeply forked tail; white leading edge on lower fins, but no black line.

**Habitat:** Cold waters of deep lakes.

**Favourite Baits:** Spoons, jigs, crank baits and lake trolls.

## Rainbow Trout

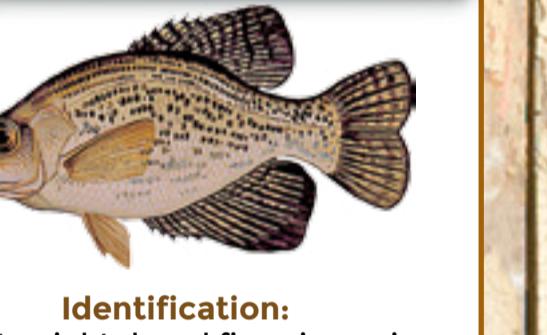

**Identification:** White mouth and gums; silver body with dark spots; spots all over tail in radiating rows; leading anal fin ray extends the length of the fin; long, stocky caudal peduncle.

**Habitat:** Clear, rocky waters with little vegetation.

**Favourite Baits:** Small jigs, spinners, crank baits and lake trolls.

## Black Crappie

**Identification:** Seven to eight dorsal fin spines; six or seven anal fin spines; irregular mosaic of distinct black blotches.

**Habitat:** Clear, weedy lakes and slow rivers.

**Favourite Baits:** Small jigs, small minnows and worms.

## Pumpkinseed

**Identification:** Three anal fin spines; wavy, blue-green stripes on sides of the head; ear flap with orange or red spot.

**Habitat:** Clear, shallow, weedy waters.

**Favourite Baits:** Small jigs and worms.

## Common Carp

**Identification:** Broad bodied, heavily scaled, and barbels or whiskers at the mouth.

**Favourite Baits:** Corn and worms.

## Bluegill

**Identification:** Three anal fin spines; black spot at rear end of dorsal fin; ear flap is black.

**Habitat:** Warm, vegetated, still waters.

**Favourite Baits:** Small jigs and worms.

## Muskellunge

**Identification:** Dark, vertical bands on a light background, at times spotted or clear; tips of tail fin more pointed than northern pike. See head close-up above.

**Habitat:** Larger lakes.

**Favourite Baits:** Worms, corn and minnows.

## Channel Catfish

**Identification:** Deeply forked tail.

**Habitat:** Larger lakes.

**Favourite Baits:** Worms, corn and minnows.

## Yellow Perch

**Identification:** Six to eight dark, vertical bands on sides, alternating with light yellow to yellow-green in colour.

**Habitat:** Quiet, vegetated waters.

**Favourite Baits:** Spoons, spinners and jerkbaits.

## Northern Pike

**Identification:** Square tail.

**Habitat:** Warmer, slow waters.

**Favourite Baits:** Worms, corn and minnows.

## Brown Bullhead

**Identification:** Square tail.

**Habitat:** Warmer, slow waters.

**Favourite Baits:** Worms, corn and minnows.

## FMZ 16

Ontario Fisheries Management Zones

The Region of Durham covers three zones.

## FMZ 17

Each FMZ has its own unique boundaries, fishing seasons and limits. Please visit the Ministry of Natural Resources and Forestry (MNRF) and their Recreational Fishing Regulations Summary for complete details.

## FMZ 20

This map is a guide and an estimation only. For full regulations, visit [www.ontario.ca](http://www.ontario.ca)
